Maximum Height: 175 cm

# OPERATING INSTRUCTIONS

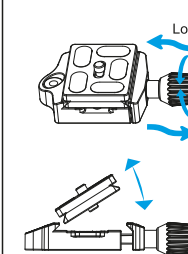

MOJOGEAR

## Ball head instructions:

Loosen the Ball and Pan Knobs to adjust the shooting angle. Please hold your camera or phone while adjusting the ball head.

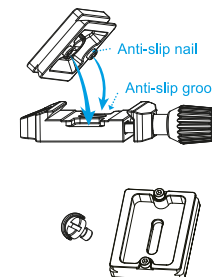

## Quick Release Knob with safety features

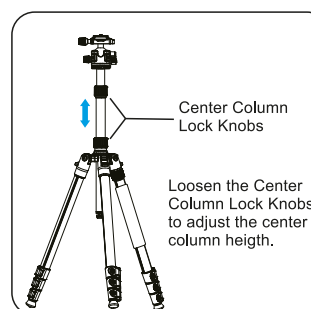

Lock and unlock the Quick Release plate with the Lock Knob.

The anti-slip nail prevents your camera from falling off when adjusting the quick release plate.

You can mount the 1/4" screw on the quick release plate to your camera without any tools. If you want to screw it more tight, you can use a coin.

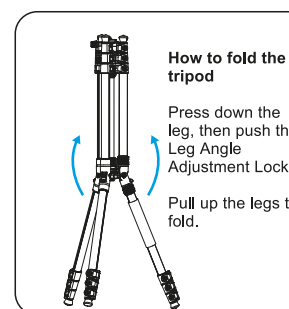

## Tripod Instructions:

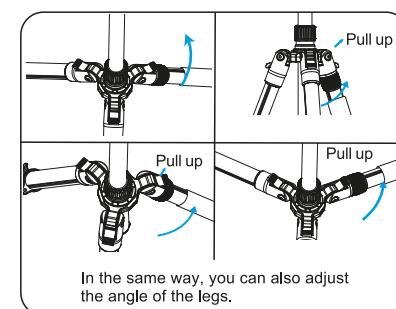

Center Column Lock Knobs

Loosen the Center Column Lock Knobs to adjust the center column height.

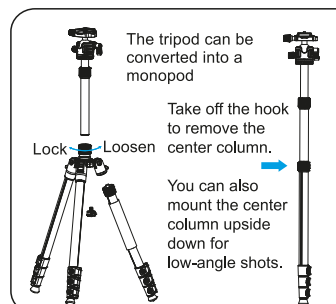

How to fold the tripod

Press down the leg, then push the Leg Angle Adjustment Lock. Pull up the legs to fold.

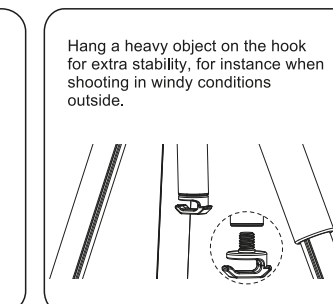

In the same way, you can also adjust the angle of the legs.

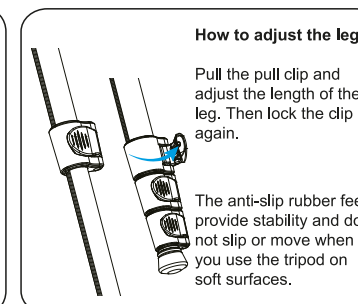

The tripod can be converted into a monopod

Take off the hook to remove the center column.

You can also mount the center column upside down for low-angle shots.

Hang a heavy object on the hook for extra stability, for instance when shooting in windy conditions outside.

How to adjust the legs

Pull the pull clip and adjust the length of the leg. Then lock the clip again.

The anti-slip rubber feet provide stability and do not slip or move when you use the tripod on soft surfaces.

MOJOGEAR

MOJOGEAR develops high-quality products for smartphone filmmakers, mobile creators and everyone else who wants to get the most out of their phone or camera. MOJOGEAR is proudly based in The Netherlands.
